@STALPHONSUSGALA

For over 100 years, St Alphonsus School has cultivated an environment where students can grow academically and spiritually in the context of supportive, faith filled learning community. Generations of students have flourished through their experiences at our school. Their ranks include many strong individuals who have been and continue to be leaders in this community and beyond. Gala was introduced, as an endeavour to assist in subsidizing the costs associated in building a new school gymnasium. Gala has become a recognized and celebrated annual tradition. It is an opportunity to celebrate together as a community to make a difference in the lives of the students and staff here at St Alphonsus Catholic School.
